HE'S PLEASED WITH CALIFORNIA.

President Gets Returns From the Golden State of the West.

Chairman Babcock Says the Election Results Showed the People Sustained the Nation's Chief.

WASHINGTON, Nov. 9.—[Exclusive Dispatch.] California's political performance yesterday caused fully as much joy at Republican headquarters here as the result in any State, and the joy over California is not confined to Republican headquarters. It overflowed into the White House so much that Chairman Babcock, of the Republican Congress Campaign Committee, in talking with the Times correspondent about the result this evening, said:

"Say in your dispatches tonight that the President is delighted with California. I have just seen him, and he is more pleased than I can tell over the result in that State. It was simply a magnificent day, a clean, grand sweep, all the more pleasing because not wholly anticipated in our forecasts of the probable result of the election."

Mr. Babcock's enthusiasm over California simply bubbled, but this was just after it became assured that the next House of Representatives would be Republican, a thing not assured until this evening. Mr. Babcock was perfectly willing to talk about the victory. He told the Times correspondent that everywhere where there were no local complications, the Republicans were victorious.

"Our losses," he said, "were in such States as New York where local troubles and local issues overshadowed national matters. In such States there were no national issues, or they were not thought of. In States west of the Mississippi there were few such local complications, and look at the result. We gained all along the line. In those Western States the only issues of the congress campaign were national issues, and as a result the voting upon those national issues of a Republican administration, Republican doctrines, the conduct of the war, everything Republican was endorsed as well as we could possibly have hoped for."

"Do you think Philippine annexation had anything to do with the Republican success west of the Mississippi?" the correspondent asked.

"Yes, maybe it had," said Mr. Babcock. "The people in that country are strongly in favor of national expansion. Perhaps they favor expansion a little more than some Eastern people do. I should not be surprised if this fact helped some, but the Republican administration was on trial, and it was supported. That is what we look at."

The Administration's Support.

NEW YORK, Nov. 9.—[Exclusive Dispatch.] Full returns of Tuesday's election make few changes in the Sun's forecast of the political status of the United States Senate in the Fifty-sixth Congress. Republican gains are in each of the nine following States: California, Delaware, Indiana, Maryland, (Republicans already elected,) Nebraska, New York, North Dakota, West Virginia and Wisconsin. These changes will give the Republicans a clear majority to work in harmony with the House of Representatives and the Republican executive.

The present Senate contains 44 Republicans, 34 Democrats, 5 Populists, 4 Silver Republicans, 2 Silverites and 1 Independent. The silver men, however, have had a majority of ten on all test questions. In the new Senate the Republicans will have 53 votes out of a total of ninety.

The following are Democratic Senators who will give way to Republicans on the Fourth of March, 1899: Stephen M. White, California; George Gray, Delaware; David Turpie, Indiana; Arthur P. Gorman, Maryland; William N. Allen, Nebraska; James Smith, Jr., New Jersey; Edward Murphy, Jr., New York; W. M. Roach, North Dakota; Charles Faulkner, West Virginia, and John L. Mitchell, Wisconsin.

The Republicans have elected 188 members to the House, the Democrats 161, and Populists and Independents 8, giving the Republicans a clear majority over all of 19.

The Sun's figures have been obtained with the utmost care and with every attempt to make them accurate. They may be trusted accordingly. Friends of sound money find much encouragement in the result of congress elections. Not only is there a working majority of Republicans in the House, but many of the Democrats elected are known to be gold men, or it is known that they actually ran on sound money platform. McAleer of Pennsylvania and Thayer of Massachusetts, both ran as gold Democrat candidates. In New York, Underhill of Westchester district is known to be as good gold man as any Republican in Congress, although he, in common with all other Democratic candidates in the State, kept silence on the subject during the campaign. Jacob Ruppert, Jr., and Jefferson N. Levy were also known as sound-money men. It was said that two Democratic Congressmen, at least, who have been elected

in Brooklyn, had promised Shepard and other sound-money leaders, that under no circumstances would they be for any other than sound-money measures in Congress. There, of course, must be other gold Democrat Congressmen from other States, especially in States where Democrats either refused to approve the Chicago platform, or passed sound-money resolutions in their State conventions.

Theodore Roosevelt carries the State of New York by a plurality between 17,000 and 18,000. These figures are based on revised returns received tonight from every county in the State. Van Wyck's plurality in Greater New York is \$3,938, and in Manhattan and Baron boroughs, 60,622. Woodruff, for Lieutenant-Governor, runs slightly behind Roosevelt for Governor.

In Massachusetts the Republicans swept everything, giving Gov. Wolcott a plurality of 80,000.

In New Jersey the Republican candidate for Governor goes in by 10,000 or 11,000. The Legislature is Republican, insuring the election of a Republican Senator in place of Smith.

Connecticut, which sometimes goes Democratic, also turns up Republican by about 16,000 plurality.

Pennsylvania sustains its previous Republican record with a plurality of 150,000.

Ohio sustains President McKinley with a plurality of 60,000.

In Iowa the Republicans come out 62,000 ahead.

Michigan elects a Republican Governor by 75,000 plurality.

Indiana shows 15,000 for the head of the Republican State ticket.

Wisconsin make a record of not less than 40,000 Republican plurality.

Kansas Republicans elect their State ticket by more than 10,000, and name seven of eight Congressmen.

Nebraska repudiates Bryan and free silver. Republicans elect four out of six Congressmen.

The feature of the election is the great Republican majorities given throughout the Union in support of President McKinley and his policy. Another feature is the total annihilation of the Populist forces of the West.

CONFLICT OF OPINION.

Party Leaders on the Complexions of the Next Congress.

[ASSOCIATED PRESS NIGHT REPORT.] WASHINGTON, Nov. 9.—Chairman Babcock of the Republican Congress Committee said this evening that the House of Representatives of the Fifty-sixth Congress would be Republican without doubt. Throughout the day and evening a corps of political statisticians have been at work in the Republican headquarters compiling the returns.

In a statement to the Associated Press this evening Chairman Babcock said: "There can no longer be a reasonable doubt over the political complexion of the next House of Representatives. It will be Republican beyond the shadow of a doubt. Our advice show the certain election of 185 Republicans, six more than enough to give us control. These are straight Republicans, and our majority will be over the combined opposition. Our in-

formation induces us to place nine districts in doubt. These are the Seventh, in California; the Third, Fourth, Fifth and Sixth, in Nebraska; the Seventeenth, Nineteenth and Twentieth, in Pennsylvania, and the Twelfth, in Texas. We are reasonably certain to get some of them. Without them, however, we have a clear majority, and are resting perfectly easy."

"The Sixth Iowa, which was in doubt for a time, has certainly elected Representative Lacey (Rep.) In Kentucky we have elected not only Selts in the Tenth, but Pugh in the Ninth. In Kansas we have a solid delegation, although it was not until this evening that we put Kirkpatrick of the Third District in the certain Republican column. In Maryland we concede the defeat of Jackson in the First District and McIntyre in the Fourth; Minnesota returns a solid Republican delegation, Judge Morris having defeated Charles Towne in the Sixth District; in Massachusetts we concede the election of Democrats in the Third, Ninth and Tenth Districts. According to our advice the delegation from New York will stand 15 Republicans and 19 Democrats; in North Carolina we claim the election of White in the Second District and Linney in the Eighth, but we may be counted out in both of them. In Pennsylvania the delegation stands, 20 Republicans, 7 Democrats, and 3 doubtful. Texas stands 1 Republican, 11 Democrats, 1 doubtful—the Twelfth District, and in West Virginia we carried the First, Second and Fourth districts, while the opposition carried the Third.

"From our point of view, that is the situation as it is tonight. I fully believe that the returns we shall receive tomorrow will increase the figures I have made tonight."

At the headquarters of the Democratic Congressional Committee, confidence is expressed that the Democrats will control the next House of Representatives. Secretary Kerr will not concede any of the claims made by Chairman Babcock of the Republican committee, and says that in a large number of districts it will require the official count to definitely determine the result. "It is certain," said Secretary Kerr to the Associated Press, "that we have elected 183 members of the next House, the Republicans 163, and that eleven districts are doubtful. In New York we will have twenty-one members, in Pennsylvania 9, and perhaps 10; in Kansas 4 at least, and perhaps 5; in Nebraska 4, in North Carolina 9, and in California 3. Information is slow in coming in, because the count in so many districts is very close. Our figures are based upon definite returns, and I am satisfied that they are entirely accurate."

The following Congressmen have been elected:

ALABAMA.

- First—Taylor (Dem.)
- Second—Stallings (Dem.)
- Third—Clayton (Dem.)
- Fourth—Robbins (Dem.)
- Fifth—Brewer (Dem.)
- Sixth—Bankhead (Dem.)
- Seventh—Burnett (Dem.)
- Eighth—Wheeler (Dem.)
- Ninth—Underwood (Dem.)

ARKANSAS.

- First—McCulloch (Dem.)
- Second—Little (Dem.)
- Third—McRae (Dem.)
- Fourth—Terry (Dem.)
- Fifth—Dinsmore (Dem.)
- Sixth—Brundage, Jr. (Dem.)

CALIFORNIA.

- First—Barham (Rep.)

SAN FRANCISCO, Nov. 9.—[Exclusive Dispatch.] San Francisco will take her place at the head of the column of the Republican counties of the State by reason of its magnificent plurality for the head of the Republican ticket. The continuation of the count today only adds to the size of the vote for the Republican State ticket. The gains for Gage came from every section of the city, showing a veritable landslide for the ticket.

With returns from all but 19 city precincts, the plurality of Gage is 3298, and the remaining precincts will surely make the figures 4000 before the official count is concluded. This is absolutely on the basis of the first returns given by the Chronicle, as the total vote fell below what was expected. According to these figures Gage's following was not confined to any locality. The entire city took part in the sweep.

The greatest vote cast in the city was that given to George W. Root, for Clerk of the Supreme Court. His plurality in the city, as shown by the count so far, is 9971. On the other hand, the greatest slump is that in the vote for C. F. Curry for Secretary of State. His opponent, Thompson, shares with Dunn the honor of receiving a majority of votes. Thompson has 5111 the best of the Secretary's fight in this city. Neff comes in between the head of the ticket and the popular Mr. Root, having 7215 plurality.

The surprise of the count of today was the development of the victory of John P. Dunn for member of the Board of Equalization. By the figures in the early counting Dunn was behind materially, but today he pulled up on his opponent and passed Edwards gradually, winding up with more than 100

Old Line Democracy: "If I ever get this craft to land I'll never be caught out on these troublous waters again with such a crew."

votes to the good tonight. Whether the nineteen precincts unreported will defeat Dunn is a question.

The vote on the constitutional amendments is very light, and the proposition to revise the Constitution of the State did not have any chance from the first, if the big vote against it is a criterion.

On the legislative ticket there were many surprises. One of these was the defeat of Patrick Graham of the Twenty-eighth District, who was thought to have the place easily. Another was the defeat of Leon Jones, who had been claimed in all the forecasts. Brophy is another defeated candidate, who was considered a sure winner. In each of these cases there is such a small margin of votes for the victor that it is probable that there will be contests for seats at Sacramento. On the other hand, the victory of John Hoy in the Eighteenth Senatorial District, where yesterday his friends were not too hopeful of success, was one of the gratifying features. The victory of Hoy in such a strong Democratic district is a tribute to his popularity.

The contest in the Twenty-fourth Senatorial District between Leon Denney and Porter is liable to be renewed before the Legislature, when it meets in Sacramento next January. According to semi-official returns made up by the Registrar, Denney received 2400 votes to Ash's 2425. This would give Ash a majority of 25, but a canvass of the returns of the district made by Denney, shows that the latter has won out by a majority of two votes. The Republicans of the newspaper bureau give Ash 20.

It is asserted that there was a great deal of fraud practiced during the election, and a canvass of the vote of the district and the contest at Sacramento will, it is believed, result in a recount and the seating of Denney on the returns thus obtained.

REVIEW OF THE STATE.

Curry Defeated—Legislature Is Safely Republican.

[BY DIRECT WIRE TO THE TIMES.]

SAN FRANCISCO, Nov. 9.—[Exclusive Dispatch.] The returns, complete and incomplete, from all counties, in California up to 2 o'clock this morning, including San Francisco, complete, and 1315 precincts in the interior, give Henry T. Gage, Republican candidate for Governor, 124,573 votes, and James G. Maguire (Dem.), 120,653. Mr. Gage's plurality is 3,920, so far as the vote of the State has been counted, and there is no reason to doubt that the returns from the remote precincts in the State will show steady Republican gains over the vote cast for President McKinley in 1896. The rest of the Republican State ticket, with three exceptions, has kept well up with the vote cast for the head of the ticket.

Returns indicate the defeat of Charles F. Curry, the Republican candidate for Secretary of State, by Robert Thompson (Fus.). The same precincts that give Gage a plurality of 3,920 give Curry a plurality of 3338 over Curry. Gage's vote in these precincts exceeds that cast for Curry by 31,155.

The vote for Justices of the Supreme Court is very close, with the chances slightly in favor of Van Dyke (Fus.) and McFarland (Rep.). The returns from city and State up to 2 o'clock this morning give Van Fleet, 77,978; Van Dyke, 83,425; McFarland, 81,181, and Conley, 78,210.

The Congress delegation, as published in yesterday's Chronicle, will consist of 6 Republicans and 1 Democrat, against 3 Republicans, 2 Populists and 2 Democrats on the present delegation.

In the First District Barham (Rep.) will have over 1000 plurality over Seawell (Fus.).

In the Second District De Vries (Dem.) is probably returned by a substantial plurality.

In the Third District, Metcalf (Rep.) has a plurality of 6000 over Jones (Fus.). Julius Kahn (Rep.) defeats James H. Barry in the Fourth District, by 1700 plurality.

Eugene F. Loud (Rep.) runs away behind the State ticket in the Fifth District, but has over 1500 plurality over William Craig (Fus.).

C. A. Barlow (Fus.) is beaten by over 3000 by Russell Waters in the Sixth District.

J. C. Needham has over 1000 votes to the good in his contest with Dr. Castle (Fus.).

The Republicans have elected 16 Senators, and with 11 hold-overs, have 27 members of that body. The Democrats have only 13 Senators, 9 hold-overs and 4 newly-elected.

The Assembly will probably stand: Republicans, 57; Democrats, 23. This gives the Republicans a majority of 48 on joint ballot, to elect a United States Senator to succeed Stephen M. White.

STILL MAYOR PHELAN.

Given Three Thousand Majority. Other Golden Gate Elections.

[BY DIRECT WIRE TO THE TIMES.]

SAN FRANCISCO, Nov. 9.—[Exclusive Dispatch.] James D. Phelan has been elected Mayor of San Francisco on the face of incomplete though fairly full returns, by a majority of 3000 in round numbers. From the beginning of the count Phelan fought to the front, and his opponent was never the leader. The result shows that the Mayor has 26,910 to Patton's 23,716. These returns are based upon complete figures from 289 precincts, and incomplete returns from four more, which leaves only ten precincts from which no figures can be had. It is not believed Phelan's plurality will exceed 3500.

Mayor Phelan carried to victory with him but few of his men on his ticket. The chief place which goes to the Democrats, outside of the Mayoralty, is the Assessorship, where Dr. Washington Dodge defeated John D. Siebe by a plurality of 7000. Franklin K. Lane won from W. F. Fitzgerald in the fight for Attorney and Counselor by 700, while Hill was elected Coroner by a bare plurality. In addition to this, Democrats elect three Superior Judges, Borden, Murakay and Seawell, and two judges of the Police Court, Conner and Morgan, their associates being Republicans, Graham and Treadwell. But one Democratic Justice of the Peace, Alfred Fritz, was elected, Republicans being put on this bench were J. E. Berry, G. C. Groesinger, Frank H. Kerrigan and Thomas F. Dunn.

Superior Judge Troutt was the only one of the Republican candidates for the bench who was chosen. He received

the highest vote for the place. The highest vote cast, except for Lackmann, who was on both tickets, was that of Charles T. Conlan, who received 28,964 for Police Judge. Aigeltinger, with 28,424, being next, while William A. Deane, for County Clerk, received the magnificent vote of 27,620. The Board of Supervisors now stands 10 Republicans to 2 Democrats.

The victory of Asa R. Wells for Auditor over Grady was a decided one, as was that of Henry S. Martin over Bonnet for Sheriff. The plurality in both cases being approximately 5000. Sheehan had 8000 the best of Block for Tax Collector, while Truman for Treasurer defeated Greenblatt by only 500. Berthier had less than 1000 the better of Meagher for Recorder, while the vote of Deane gave him the County Clerkship over Brown by nearly 7000, the largest plurality on the list. Murphy beat Henly for District Attorney handsily, and the victory of Lane over Fitzgerald for City and County Attorney was the outcome of one of the close fights on the tickets. The Coroner's race was a living finish between Hill and Harrison. The Public Administrator's fight was almost of the same character. Drinkhouse, Fitzgerald and Freese being separated by about 4000 from each other. Tilton for Surveyor, Fragley for Superintendent of Streets, and Webster for Superintendent of Schools had good majorities.

ANOTHER REVIEW.

[ASSOCIATED PRESS NIGHT REPORT.]

SAN FRANCISCO, Nov. 9.—The latest returns received from every portion of the State confirm the earlier reports of a sweeping Republican victory. The plurality for Gage is not placed at less than 20,000, and may exceed that figure. Jacob Neff, the Republican candidate for Lieutenant Governor, has everywhere run up with the head of the ticket, and in some counties has won a good lead. Curry for Secretary of State, made a poor showing, compared with the other nominees, and has probably been beaten by Thompson, his Democratic opponent.

The contest for Supreme Court Justices was very close, and the Democrats had the lead in the race. Van Dyke, the fusion nominee, Conley and Van Dyke, the Republicans, however, do not concede this, and assert that McFarland and Van Fleet have been chosen, although the majority for the latter will not be large. The complete count may be necessary to determine the result with certainty.

The center of interest in the San Francisco municipal contest has been the fight for Mayor. Charles L. Patton, the Republican nominee, although having no voice in politics, made a good showing behind Murphy, the incumbent, has been reflected by a substantial majority. Assessor Siebe will have to retire in favor of Dr. Washington Dodge, whose majority will be large.

Judge Wallace has been beaten for Superior Judge, and Charles H. Henry for District Attorney. The Board of Supervisors, as well as about all the other city officials, will be Republicans.

CONGRESS DISTRICTS.

[ASSOCIATED PRESS NIGHT REPORT.]

SAN FRANCISCO, Nov. 9.—First Congress District—205 precincts of a total of 440, give Barham (Rep.) 10,215; Jones (Dem.) 9014; Barham's plurality in 1896 was 1498.

Second Congress District—316 precincts of a total of 471, give Ryan (Rep.) 15,965; De Vries (Dem.) 13,983; De Vries' plurality in 1896 was 5821.

Third Congress District—230 precincts out of 265, give Metcalf, 13,443; Jones (Dem.) 12,454. Hilborn's plurality in 1896 was 3659.

Fifth Congress District—Eighty-four precincts out of 225, give Loud, 7140; Craig, 5563.

Seventh Congress District, 301 precincts out of 500, give Needham (Rep.) 15,301; Castle (Dem.) 14,284. Castle's plurality in 1896 was 244.

From 1897 of the 2407 precincts in the State, it is shown that Gage obtained 96,888 votes, and Maguire, 76,988; Curry for Secretary of State, 73,953; and Thompson (Dem.), 70,474.

SIXTH CONGRESS DISTRICT.

[ASSOCIATED PRESS NIGHT REPORT.]

SAN FRANCISCO, Nov. 9.—The Bee's tables show the following results, as far as counted, in Sacramento county, three city precincts and seven county precincts yet to be heard from:

Gage, 4532; Maguire, 4451; Neff, 4451; Hutchinson, 2439; Secretary of State, Curry, 4432; Thompson, 2761; Controller, Colgan, 5232; Maples, 1948; Printer, Johnston, 4912; Woodman, 2747; Attorney-General, Ford, 4314; Andrews, 2608; Surveyor-General, Mulholland, 2026; Wright, 4997; Treasurer, Reeves, 4015; Green, 3088; Supreme Court, Conley, 2800; McFarland, 2456; Van Dyke, 1892; Van Fleet, 3396; Clerk Supreme Court, Root, 3531; McCrany, 3385; Congress, Ryan, 4125; De Vries, 3397; Railroad Commissioner, Maguire, 3100; Board of Equalization, except three precincts in the city and eight in the county, Brown, 4463; Scott, 2607; Superintendent of Marine and Fisheries, Kirk, 4312; Runkle, 2339.

For the Supreme Court, 630 out of 2104 precincts, outside of San Francisco, give Van Fleet (Rep.) 32,532; McFarland (Rep.) 32,501; Van Dyke (Dem.) 34,997; Conley (Dem.) 3,661.

For Railroad Commissioner in the First District, complete returns from all precincts heard from to 11 a.m., give Edison (Rep.) 12,147; Larue (Dem.) 1,612, outside of San Francisco. For Railroad Commissioner in the Third District, complete returns from all precincts counted, give Blackstock (Rep.) 1,131; Dryden (Dem.) 14,023.

In San Francisco city, 222 out of 303 precincts, give Gage, 8730; Maguire, 8,584, for Governor. Curry (Rep.) 17,133; Thompson (Dem.) 23,190, for Secretary of State. The count of the city ticket in San Francisco is very slow, but twenty-three precincts out of 303 give Phelan (Dem.) for Mayor, 10,930, Patton (Rep.) 946.

In Sacramento county, with seven outside precincts to hear from, Gage has 5317 votes; Maguire, 3038. For Secretary of State, Curry 4511; Thompson, 2389. For Supreme Court Justice, Van Fleet, 4387; McFarland, 4458; Van Dyke, 2554; Conley, 2993. For Congress, Ryan, 4421; De Vries, 3730.

Solano county has elected a Republican Supervisor for the first time in twenty-two years.

Complete returns from 91 out of 164 precincts in Los Angeles county, give Gage, 7650; Maguire, 6273, for Governor. For Secretary of State, Curry 6924; Thompson, 6113. For Congress, Gage (Rep.) 7521; Barlow (Dem. and Pop.) 6118. The same precincts in 1896 gave McKinley, 5919; Bryan, 5172.

MORE LEGISLATIVE FIGURING.

[ASSOCIATED PRESS NIGHT REPORT.]

SAN FRANCISCO, Nov. 9.—The Legislature the Republicans will have a working majority in each house, and a very large majority on joint ballot. Returns secured up to midnight show that the Republicans in the Assembly have elected 11 Assemblymen. One Independent, in San Bernardino, wins. The remaining 12 districts are in doubt, with a fair chance that the Republicans will get another half a dozen members of the Assembly.

The Republicans also elect 14 of the 20 new Senators, and also elect 14 of the 11 hold-overs, insures 25 of the 40 Senators. Two districts, the Second and the Third, are yet in doubt, but the indications are that the Republicans will win in the Second District.

A CLOSING RACE.

[ASSOCIATED PRESS DAY REPORT.]

GAGE'S GAINS.

(CONTINUED FROM SECOND PAGE.)

yet totaled, but it appears unquestioned that they give Gage and Needham majorities.

The same precincts give for Senator in the Fourth District, Nutt (Rep.) 1888; Thomas (Fus.) 1226. For Assembly, Eighth District, Crowder (Rep.) 1735; Hammonds (Fus.) 1041.

TOO ENTHUSIASTIC.

Some Republicans Predicted Thirty Thousand for Gage.

SAN FRANCISCO, Nov. 9.—The claims made last night by Republicans that they had carried the entire State ticket are not borne out by the returns that come in today.

Of Gage's election there is no denial, the only question being how big will be his majority. Enthusiastic Republicans say 30,000, but less than half that would be nearer the mark.

Curry (Rep.), for Secretary of State, is running behind his ticket, as are McFarland and Van Fleet (Rep.), candidates for Supreme Judge. As these men are falling behind in the county as well as in San Francisco, it is very probable that they will be defeated. It seems likely that Ryan (Rep.), for Congress will be beaten by De Vries in the Second District. Kahn and Loud are undoubtedly elected in the Fourth and Fifth, and while the other districts are close, the Republican leaders claim that they will have them all. The Democrats will make no predictions and their headquarters were deserted all the morning.

The Republican candidates for Railroad Commissioners are believed to be safe and well, as also a comfortable working majority in the Legislature.

FRESNO.

Wildest Democratic Dreams Have Been Realized.

[ASSOCIATED PRESS DAY REPORT.]

FRESNO, Nov. 9.—Fresno county has gone Democratic by a good majority. From the returns received thus far, the wildest dreams of the most enthusiastic have been realized. In the fight for Sheriff, it was thought that Collins (Dem.) would carry the county precincts by 800 or 900 and lose the town by enough to elect Peck, the Republican nominee. Collins has carried Fresno city, and it looks as though he will pile up a bigger vote in the country than was anticipated. His majority will be between 1000 and 1500.

Maguire will carry the county by from 500 to 1000. Returns are coming in very slowly, but in twenty-three precincts in and about Fresno city, Gage has 1775, while Maguire has 1467. Although Maguire has in these precincts a majority of 91, it was thought by the Republicans that these precincts would give a majority of from 100 to 300 for their candidate. In the precincts yet to be heard from, the Democratic-Populist majority is overwhelming. These are sure to give Maguire a large majority.

In every precinct heard from, Castle, Union candidate for Congress, has made gains over his vote of 1896. He will receive 200 votes more this year in Fresno county than he did two years ago. It is reported here that he has lost Kings county, and that his vote in Tulare county has fallen off from what it was two years ago.

The Republicans claim that they have elected Assemblymen in the Sixty-second and Sixty-third districts, and the State Senator in this Senatorial District, which takes in Fresno and Madera counties. The figures would indicate, however, that while the Republicans have elected the State Senator, the Assembly districts will go Democratic.

It is not thought that the Republicans will elect more than three men in this county, and these by the barest majorities. A complete Democratic sweep may be realized when the entire vote shall have been counted.

WHERE CASTLE IS AHEAD.

[ASSOCIATED PRESS NIGHT REPORT.]

FRESNO, Nov. 9.—Returns received from 45 precincts out of 72 up to 3 o'clock this evening give Maguire a majority of 229 and Hutchinson 190. Castle for Congress will probably get 300 majority. Republicans claim the legislative ticket. The remainder of the State ticket is running pretty well with the leaders.

The returns received up to midnight in 56 out of 72 precincts give Maguire a majority of 468. The 16 precincts still to be heard from are mostly Democratic, and his majority will probably reach 500. The same 56 precincts give Castle, for Congress, a majority of only 211.

Dr. Chester Rowell (Rep.), is elected State Senator, with a majority of 470, which will probably be increased to 500. The fight in the Sixty-second Assembly District is very close. M. Griffin (Fus.) has a majority of 60 to the 56 precincts. In the Sixty-third, Truman Hart is 22 ahead of John Fairweather (Fus.) and the prospect is that he will maintain his lead. The fusionists will get all save two or three county offices.

DEL NORTE.

Gage Leads His Ticket, but All Win.

[ASSOCIATED PRESS NIGHT REPORT.]

CRESCENT CITY, Nov. 9.—This county gives Gage 50 majority. The rest of the Republican ticket will average 35 majority.

SAN JOAQUIN.

County Republican Except, Perhaps, for Secretary of State.

[ASSOCIATED PRESS DAY REPORT.]

STOCKTON, Nov. 9.—Incomplete returns from San Joaquin county indicate that the county has gone Republican throughout the ticket, with the possible exception of Curry for Secretary of State, by from 500 to 700 majority. De Vries (Rep.), for Congress, will carry the county by about 1500 majority, while both Republican Assemblymen will be elected by about 1000 each over Union candidates.

STOCKTON, Nov. 9.—Thirty-eight of the fifty precincts of San Joaquin county give Curry, 2672; Thompson, 2631. For Justice of the Supreme Court they give Conley 4485; McFarland, 2321; Van Dyke, 2375; Van Fleet, 2446. For Railroad Commissioner, Blackstock, 2566; Dryden, 2297. These precincts gave Gage 3156 and Maguire 2448. The twelve precincts which have not sent in returns on the above State officers gave Gage 738 and Maguire 755.

DE VRIES'S STRONGHOLD.

[ASSOCIATED PRESS NIGHT REPORT.]

STOCKTON, Nov. 9.—San Joaquin county gives Gage, 3594; Maguire, 2023. De Vries for Congress in the Second District has 2022 majority in this county, the vote being: De Vries, 4321; Ryan, 2290.

RAILROAD COMMISSIONER.

Laumesteir Leads in the Second California District.

[ASSOCIATED PRESS DAY REPORT.]

SAN FRANCISCO, Nov. 9.—For Railroad Commissioner in the Second District, including San Francisco, complete returns from precincts counted give Laumesteir (Rep.) 19,611; Hinton (Dem.) 18,457.

THIRD DISTRICT.

[ASSOCIATED PRESS DAY REPORT.]

SAN FRANCISCO, Nov. 9.—In the Third District complete returns from all precincts counted give Blackstock (Rep.) 13,131; Dryden (Dem.) 12,932.

Pugh Has Forty-two Majority for Congress.
[ASSOCIATED PRESS DAY REPORT.]

VANOEUBURG, Nov. 9.—Returns from all counties in the Ninth District give Pugh (Rep.) for Congress a majority of 42.

ALL DEMOCRATIC THERE.
[ASSOCIATED PRESS DAY REPORT.]

LOUISVILLE, Nov. 9.—The Democrats won a sweeping victory yesterday by reflecting possibly ten Congressmen out of eleven, and preventing the Republicans from gaining control of the Court of Appeals.

NECK AND NECK.
[ASSOCIATED PRESS NIGHT REPORT.]

LOUISVILLE, Nov. 9.—The Ninth District Congress race according to the very latest advice, is so close that both Williams (Dem.) and Fugate (Rep.) are claiming it. The official count will be necessary to settle the election.

ARIZONA.

Two Rough Riders, Both Republicans, Defeated for Office.
[BY DIRECT WIRE TO THE TIMES.]

PHOENIX (Ariz.), Nov. 9.—[Exclusive Dispatch.] Late returns indicate the election of J. F. Wilson (Dem.) as Delegate to Congress, defeated by Aaron Goldberg, a merchant, and T. F. Grindell, another Rough Rider, for County Superintendent of Schools, by A. H. Fulton, a Democrat.

The Democrats elected one member of the Legislature out of three. The contest on sheriff is very close, but the Democrats will probably elect by a narrow margin.

A DEMOCRAT CONCEDED.
[ASSOCIATED PRESS NIGHT REPORT.]

PHOENIX, Nov. 9.—In Arizona for Delegate to Congress, the Republicans conceded the election of Wilson (Dem.) by 300.

INDIANA.

Big Plurality and Only a Fifth Heard From.
[ASSOCIATED PRESS DAY REPORT.]

INDIANAPOLIS, Nov. 9.—With one-fifth of the precincts of the State heard from, the indications are that the Republican plurality will be near 15,000.

CONCEDED TO REPUBLICANS.
[ASSOCIATED PRESS DAY REPORT.]

INDIANAPOLIS, Nov. 9.—Returns yesterday indicate a decisive victory for the Republicans in the Indianapolis district to Congress. The Democrats conceded the Republicans a majority in the State of about 10,000.

FIFTH INDIANA DISTRICT.
[ASSOCIATED PRESS NIGHT REPORT.]

TERRE HAUTE, Nov. 9.—For Congress, Fifth District, George W. Farris (Rep.) elected.

IDAHO.

The Entire State Fusion Ticket is Elected—Plurality Large.
[ASSOCIATED PRESS NIGHT REPORT.]

BOISE (Idaho), Nov. 9.—Only forty-seven precincts in the State, embracing one-eighth of the vote, have reported. They give Mess (Rep.) for Governor, 261; Steunenberg (Dem.), 308; Anderson (Pop.), 557. Forty-six precincts give Heyburn (Rep.) for Congress, 256; Wilson (Rep.) 253; Gunn (Pop.), 29. The fusion ticket is all elected by pluralities ranging from 1000 to 8000. The Legislature will be controlled by the fusionists.

COLORADO.

Thomas for Governor Has a Big Plurality.
[ASSOCIATED PRESS DAY REPORT.]

DENVER, Nov. 9.—The entire fusion State ticket, headed by Charles S. Thomas (Dem.) for Governor, is elected by a majority approximating about 50,000.

DELAWARE.

UNITED STATES SENATOR.
[ASSOCIATED PRESS DAY REPORT.]

WILMINGTON, Nov. 9.—According to a complete return from the State, with the exception of a few districts, the next Legislature will stand: Republicans, 24; Democrats, 23. The Republicans, with the House, elect a senator to succeed United States Senator Gray (Dem.).

Congressman Handy (Dem.) was defeated by John Hoffecker (Rep.) by a majority that will not be less than 100.

MICHIGAN.

Gov. Pingree's Astonishing Majority. Legislature is Republican.
[ASSOCIATED PRESS DAY REPORT.]

DETROIT, Nov. 9.—Gov. Pingree's plurality is placed at about 55,000. All the Congressmen elected are Republicans. The Legislature, which is to elect a United States Senator for the full term, is Republican.

MONTANA.

Legislature is Democratic by a Decided Majority.
[ASSOCIATED PRESS DAY REPORT.]

HELENA, Nov. 9.—Campbell (Dem.) is elected to Congress by a plurality exceeding 4000. The Legislature is Democratic by a decided majority, and complete returns will not alter materially the situation as stated.

MISSOURI.

Democratic Managers Lower the Earlier Estimates.
[ASSOCIATED PRESS DAY REPORT.]

ST. LOUIS, Nov. 9.—As the returns come in more freely, the Democratic State managers lowered their estimate of the State ticket and Legislature. Five thousand majority on the State ticket is the estimate now given, with a majority on joint ballot in the Legislature about twenty-three.

ST. LOUIS, Nov. 9.—Missouri, for Congress—Eighth District, Richard Bland (Dem.) Ninth District, Champ Clark (Dem.) both reflected to Congress.

NEVADA.

The Governorship Remains a Matter of Party.
[ASSOCIATED PRESS NIGHT REPORT.]

CARSON (Nev.), Nov. 9.—The vote for Governor is very close, but Sadler (Sil. Rep.) claims his reelection by 800 majority over William McMillan (Rep.)

For Congress, Newlands (Sil. Dem.) is reflected by 3000 majority over his only opponent, Wren (Pop.). The balance of the State ticket is conceded to the silver party with the exception of Superintendent of Public Instruction.

The construction of the new Legislature is a matter of conjecture. Four-fifths of the members will belong to the silver party, but a senator pledged to Senator Stewart for reelection and the remainder are not, the Democrats may join with the Republicans, Democrats and Independents in the organization of the Legislature.

THIRTY-FOUR PRECINCTS.
[ASSOCIATED PRESS DAY REPORT.]

CARSON (Nev.), Nov. 9.—Complete returns from 34 out of 158 precincts for Governor give Sadler (Silver) 835; McMillan (Rep.) 822; McCullough (Pop.) 182; Russell (Dem.) 439. For Congress, Newlands (Sil. Dem.) 1292; Wren (Pop.) 860. Returns show large Republican gains over 1896.

A MIXED CONDITION.
[BY DIRECT WIRE TO THE TIMES.]

CARSON CITY, Nov. 9.—[Exclusive Dispatch.] Complete returns from 68 out of 158 precincts give, for Governor, McMillan (Rep.) 1702; Sadler (Sil. Rep.) 1619; Russell (Dem.) 1018; and McCullough (Pop.) 606. For Congress, Newlands (Sil. Rep.) 2588; Wren (Pop.) 1781.

Fusionists Sure of Two Congressmen—Fourth District Doubtful.
[ASSOCIATED PRESS NIGHT REPORT.]

LINCOLN (Neb.), Nov. 9.—The Republicans concede the election of Green (Fus.) in the Sixth District, and the probable election of Robinson (Fus.) in the Third. The Fourth is so close as to require the official count.

NO CHANGE MADE.
For Congress—Second District, David H. Mercer (Rep.) is reflected.

REBUKING BRYANISM.
[ASSOCIATED PRESS DAY REPORT.]

LINCOLN, Nov. 9.—Related precinct returns today continue to indicate that Nebraska has turned a political somersault and landed in the Republican column. Three hundred and sixteen precincts outside of Lincoln and Omaha give Hayward (Rep.) for Governor 29,584; Pointer (Fus.) 26,382, a net Republican gain of 4787. If this gain is maintained, Hayward will carry the State by over 40,000.

Figures on legislative candidates are not such as to make comparisons possible, but show that they shared equally with the Governor. In a few counties, which went Fusion on the State ticket, the Republican legislative candidates are elected, which makes the claim that the Legislature on joint ballot is Republican, a conservative one. The First and Second Congress districts are Republican, the Third and Sixth Fusion, and the Fourth and Fifth in doubt.

THE MAN OF THE WEEK:

WASHINGTON.

Republican Ticket Gets Two Congressmen—Local Option Defeated.
[ASSOCIATED PRESS NIGHT REPORT.]

SEATTLE, Nov. 9.—Returns from the State of Washington are yet incomplete, but enough are at hand to make it certain that the Republicans have overcome the fusion majority of 12,000 two years ago, and have elected both Congressmen and two Supreme Court Justices by a majority of at least 3000. Later returns will, it is thought, increase rather than diminish this estimate.

The Legislature, which will elect a United States Senator, will be Republican on joint ballot by at least forty. This estimate gives the fusionists all the doubtful districts. They retain control of the Senate.

[ASSOCIATED PRESS DAY REPORT.]

WASHINGTON, Nov. 9.—Interest in the election today centered in the political complexion of the next House, the Senate being conceded to be Republican.

Although Chairman Babcock of the Republican Congress Committee did not leave his headquarters until after 4 o'clock this morning, he was back again at his desk shortly after 9 o'clock, dispatching telegrams to all the doubtful districts, urging the chairman to hurry in the returns. Mr. Babcock made this morning what he termed an ultra-conservative estimate in which he eliminated a number of doubtful districts. This estimate gives the Republicans 185 members in the House, a majority of thirteen over all. The States he is most anxious to hear from are Illinois, Indiana and Pennsylvania. Last night he figured the defeat of Boutelle in Illinois. This estimate he finds that the Chicago Congressman has pulled through, but this gain is offset by the

COUNTING THE BALLOTS.

One of the series defects of our election laws is in the manner of counting the ballots. Under the present system the counting is not only slow and tedious, but the completion of the count is delayed unnecessarily for many hours. As the law stands, no votes can be counted until all are in and the polls have been closed. While it may not be practically possible to expedite the actual counting of the ballots, it is both possible and practicable to shorten the time which under the present system must elapse between the closing of the polls and the completion of the count.

One method of attaining this desirable result, which is in use in some of the Eastern States, is to have duplicate ballot boxes, or sets of boxes, at each polling place, with the requisite officers in charge. Soon after the voting begins, the counting of the ballots which have been placed in one of the boxes is begun, and proceeds steadily during the day, while the voting is in progress. When the contents of one box have been disposed of, the other box is opened and a count of the ballots which it contains is begun, the empty box being used for depositing the ballots as they are cast. By this method the count proceeds simultaneously with the voting, and when the polls close the count is practically completed.

The advantages of this plan are so obvious that it is scarcely necessary to dwell upon them. While the expense of elections would probably be somewhat increased by the adoption of this system, the benefits would be so great that the extra expense would be cheerfully borne by the people. Were this system adopted in California, the results of a State election would be definitely known, in most cases, before 10 o'clock p. m., while in local elections the result would be known within one or two hours after the closing of the polls. The public generally would appreciate this promptness, and would willingly pay the extra expense, which need not be proportionately great.

The Legislature of California, at its coming session, should take up this matter and consider it carefully. The working of the plan suggested, where it is in operation in other States, should be investigated, and its best features should be incorporated into a bill. If the plan can be improved upon, in the matter of details, well and good. But there should be legislation of some kind along the lines suggested. Such a measure would meet the popular approval, and would be of great benefit and convenience to the people throughout the State.

HAS CAUSE FOR DISGUST.

Probably no other man in the United States was quite so thoroughly disgusted with politics when he read the returns Tuesday night as was Augustus Van Wyck of Brooklyn, and it is doubtful whether any other man had quite as good cause for disgust. Van Wyck was a Justice of the Supreme Court of the State of New York for the Second District. The salary of this office is larger than that of the Governor, and the term is four years. In order to become a candidate for Governor he had to abandon his proposed candidacy to succeed himself as Justice. Had Boss Croker permitted him to be a candidate for Justice instead of making him sacrifice himself on the gubernatorial nomination, his nomination and election would have been assured beyond doubt. But Croker wanted him to run for Governor, and had he not submitted the boss would not have allowed him to get the office of Justice, and there he was between the devil and the deep sea. Now the deep sea has him and the devil can't help him. *His illae lacrimae!*

As a specimen of the honesty of the Evening Curculion, it states on its first page, in large-sized type, that "The latest footings show Arnold to have a majority in this, his weakest county, indicating his easy election;" while its table of returns, on the second page, shows Arnold to be about 1000 votes behind Toland, his opponent on the fusion ticket. The Evening Curculion is as destitute of consistency as it is of a good many other qualities that go to make a newspaper respectable, useful or influential.

TICKET SCALPING.

A pamphlet has been received describing the "criminality of railroad ticket brokerage." It is issued by the Central Anti-Ticket Scalping Committee of Chicago. Several illustrations are given of ingenious forgeries of railroad tickets, and a strong plea is made for the suppression of ticket scalping. One speaker, at a meeting of the committee, made a lengthy argument for the railroads, from which the following is an extract:

"There is a prevalent and popular error to the effect that railroads are at war with the public good, but the interests of all lines of transportation are identical with the public welfare. Hostile legislation has been born of prejudice and ignorance. It has resulted in little good to the common weal and in great disaster to railway enterprise.

"During twenty years it is difficult to find a single statute, State or national, which has been enacted or enacted with the avowed purpose of conferring a benefit upon lines of transportation. During the same time myriads of propositions adverse to railroads, and their owners, and their operatives, have been embalmed as laws.

"During the same twenty years, innumerable bills for acts have been introduced in State and national legislatures for the purpose of getting money from railroads for their inventors and promoters.

"Adverse legislation relative to railroads, express companies, telegraph lines, telephone lines and sleeping-car lines, has been the constant source of subsistence for a class of vampires who lounge in the lobbies of almost every law-making body.

"State manufacturing, for the purpose of blackmailing corporate capital, has become one of the most flourishing industries of the United States. It is high time for good citizenship everywhere to distribute moral antiseptics to prevent the spread of this virulent corruption."

As THE TIMES recently stated, the railroads are considering the adoption of a uniform variety of paper, upon which all tickets shall be printed. Such a system as this is likely to do more toward abolishing ticket scalping than any amount of legislation, as the American ticket-scalper appears to have a faculty for driving a coach-and-four through any kind of law that can be framed, however stringent.

BIG FIGURES.

The gigantic scale upon which mercantile and manufacturing business is now carried on in this country is strikingly shown by details published in eastern papers regarding the saving which it is expected will be made by the tobacco manufacturers, through the consummation of the big tobacco trust, already referred to in these columns, which embraces every important tobacco factory in the United States, with one exception, and involves an amount of capital variously estimated at from \$60,000,000 to \$75,000,000. In the mere matter of advertising, it is estimated that the saving will amount to a million dollars per annum, for only one of the firms coming into the trust. The saving by the trust in selling expenses is estimated at \$2,000,000, and in freight charges almost as much, as all grades of tobacco will now be manufactured at the point nearest to the market. Altogether, the amount thus saved every year to the tobacco manufacturers, by a simple, though gigantic combination of interests, is estimated at \$7,000,000, to which will be added \$2,000,000 by a slight advance in the price of the goods, making the net sum of \$9,000,000 annually gained by consolidation, to be paid out to the stockholders of the trust.

In view of such facts as these, it is absurd to suppose that the idea of combination among manufacturers of staple articles can be suppressed, or permanently discouraged, by legislative enactment. The trust, or combine, is here to stay. The sooner we make up our minds to that fact, the better it will be for us. We may regulate these combinations, but we cannot suppress them, even supposing that it should be desirable to do so. The question as to what effect these immense aggregations of capital, on a scale undreamed of until within the past few years, will have on the social, financial and political welfare of the country, is one that may well engage the earnest attention of patriots and students of social development.

WOODEN BULLETS.

Those American jingoes who are inclined to believe that, because we whipped the Spanish with so little trouble we should be able to knock out any nation of the world in short order, would do well to study the reports that are coming in as to the rotten condition of Spanish affairs, military and otherwise, and of the absolute unpreparedness of that country to go to war. In point of fact Spain was far less prepared for war with the United States—or with any other country—than France was to go to war with Germany in 1870. An officer of a United States gunboat, who visited the Maria Teresa after the destruction of Cervera's fleet, in search of souvenirs, has thrown some light upon the equipment of the Spanish vessels. He found a large number of cartridges ready to go into the magazines of the guns, the cartridges consisting of a metal shell loaded with hair and a sprinkling of powder. The bullet was neither of brass nor lead, but of wood.

All things considered, we must admit that the Spanish naval officers displayed great courage in making the resistance they did, as many of them must have known the rotten condition of their defenses. Americans may congratulate themselves that our first war, after a long period of peace, was not with a first or second-class power. We should not permit our heads to swell too much over the defeat of Spain, which defeat was a foregone conclusion, before the first gun was fired.

The small majority for Gage south of the Tehachapi may be directly attributed to the wretched bull made in the appointment of his campaign committee in this end of the State. Considering how the remainder of California voted, Gage should have gone to the pass with not less than 12,000 votes to his credit. The McKinley tidal wave is the only thing that saved Southern California from going for Maguire, and it is to the matchless administration of our noble President that credit should be given for Tuesday's achievement in this section. Victory was attained in spite of the Osborne-Parker mismanagement, which makes the success something colossal in its magnitude. There is a great deal in luck, as is proven in this particular case. But just fancy the situation had the State been close!

William T. Stead, the well-known journalist, has had an interview with the czar, in the Crimea, and expresses his conviction of the earnestness and sincerity of the czar's purpose in proposing disarmament. Fair-minded men, who have watched the career of the young Emperor of Russia, will be more inclined to credit this view of the case than the one which is so savagely hinted at by Kipling in his recent poem. Kipling was brought up in India, where the children imbibe hatred and mistrust of Russia with their mother's milk. The czar is, doubtless, sincere in wishing to bring about peace, but whether he will succeed in doing so is another question.

The immense number of scratched tickets voted at Tuesday's election shows conclusively that the American voter is becoming "as independent as a hog on ice." It appears to be fairly well established that in order to be sure of winning victories, political parties must put up good men. This is as it should be.

Spain seems to be gradually accustoming herself to American methods of arbitration. It was, doubtless, a little surprising to find that the American Commissioners meant what they said, but, now that the first shock is over, the dons are slowly but gracefully preparing to meet the inevitable.

It is very gratifying to have an "authoritative contradiction" from Gen. Correa, Spanish Minister of War, of the reports that Spain was again preparing for war with the United States. It is a slight indication that Spain is really coming to believe that she was whipped.

A newspaper that swallows every nomination its party may make, whether good, bad or indifferent, has neither influence nor common sense. The American people have become too independent to support a racial simply because he happens to wear the tag of some political party.

The defeat of Morrison is a distinct victory for common decency on the bench. There is reason now to hope that the mace and Poker Davis gangs which infest the community will shortly be compelled to seek new pastures.

The people of the United States want to read the report made to the War Department by Gen. Miles, and a demand will be made for its publication that will pierce the ears of even a sawmill man from Michigan.

Speaking about Mayors, Fred Eaton is a young man who will make an excellent one for the city of Los Angeles, and the people will see that he is properly exalted to that position at the ensuing election.

Gen. Joe Wheeler's election by a unanimous vote will be approved by the people of the nation, regardless of politics. If there is anything else that Gentleman Joe wants, he has but to ask for it.

It is not a question of politics at the forthcoming city election, but a question of men. And fortunately, the Republican ticket is composed of the best material, from Fred Eaton down to the man at the bottom of the list.

The man who undertakes to turn down Teddy Roosevelt will discover that he has on hand an army contract. For further particulars, we beg to refer, without permission, to Mr. Van Wyck of New York.

Had George L. Arnold been able to secure one more defender, like the Evening Osbornette, his cause would have been truly pitiful. As it is, he is entitled to a few large wads of public sympathy.

Old Massachusetts came to the front and center in a way to rejoice the heart and exalt the spirit. The old Bay State is as many different kinds of a peach as there are varieties of peaches.

The Australian ballot serves a good purpose in protecting the voter from intimidation, but it delays the returns to an exasperating extent when it has to be counted by incompetent men.

Tuesday's election may be taken by our Peace Commission as further authority to go right ahead asking Spain to yield up anything we may appear to need in our business.

To defeat a Barlow and an El Hutch, both in one day, is victory enough to excite the populace for going out and getting gloriously full and smashing the furniture.

The Seventh District is not building Castles in the air this year. And yet it can't be said it doesn't Needham.

Tom Platt will have just about as much trouble in running the next

Governor of New York, as Uncle Collis will in manipulating the next Governor of California.

The guessers of the fusion outfit bear a striking resemblance just now to people who have been kicked by a team of mules or run over by an ice wagon or two.

New Jersey may have mosquitoes, but that she is also infested with no end of Republicans has been made beautifully manifest by a recent occurrence.

It is going to be difficult to get in the habit of calling Teddy, "Governor," but we'll probably acquire it after a few months' practice.

Free silver had another jolt on Tuesday last that ought to mean something, even to an Arkansas Jones or a "Coln" Harvey.

The vote may have been light in some parts of the country, but the heft of the victory more than offset the aforesaid lightness.

From the way things went day before yesterday, the Republicans will probably make it unanimous in 1900, and let it go at that.

Maguire hit the toboggan as anticipated, but the pitch of the thing was even more steep than we had any right to expect.

This fusion business has been given a black eye that demands the application of the bleaching beefsteak of common sense.

The election of William Astor Chandler is another Rough Rider victory. Those fellows are very fends for winning fights.

Mr. Maguire dreamed that the State of California was going to give him a majority of 40,000, and then his pipe went out.

We rather guess that Sirdar Collis doesn't think any too much of J. Gallagher Maguire. At least it would seem so.

Put away the fusion pants!
That Maguire used to wear!
He will never need them longer,
He has climbed the golden stair."

The Little Giant of fusion appears to have been considerable of a pigmy according to the way the returns read.

The Hypnotic Fist appears to have been as effective in the campaign of 1898 in California, as it was in 1890.

Something also happened to Castle in the Seventh District. Well, well, well, but isn't that perfectly superb?

Congress will also stand by the President, if we are to judge by the indications on the bulletin-boards.

The man behind the ballot was around and about, on Tuesday, backing up the man behind the gun.

Tuesday's election seems something in the nature of a resolution in favor of holding "them Philippines."

Say! What did Gen. Miles say? That is what the people want to know, Mr. Alger.

California responded quite as cheerfully on Tuesday last as it did to the call for troops.

That single-tax business seems to have punctured J. Gallagher Maguire's tire.

Waters is booming in the returns with a most striking resemblance to a tidal wave.

El Hutch can now go back to the Eighth Ward and muss up the scene as of old.

Say, Sagasta, been having an election over here. 'Dyou hear about it?

El Hutch also ran, but not enough to show any tracks in the dust.

Barlow ran like a scared wolf, but his movement was to the rear.

Pingree's potato patch seems to be yielding well this year.

And now to defeat the man with the pink whiskers.

Vale, Bus. Op. Barlow.

The Playhouses

ATTRACTION TONIGHT. "Sowing the Wind." One of the best plays that has come from the pen of that interesting English playwright, Sydney Grundy, is a drama that has been a source of much discussion. It is in four acts, and its main theme deals with the social inequality of the sexes, the license accorded men and the restrictions placed upon women. This play will be presented tonight with a strong cast at the Los Angeles Theater.

CHANGE OF BILL. Tonight the Grau Opera Company will present on an elaborate scale, that lutesome comic opera, "Said Pasha," with new and handsome costumes and special scenery. This fine organization has met with deserved success and is playing to large houses.

VAUTIN UNDER ARREST.

The Metallurgist and Inventor in an Italian Jail.

[ASSOCIATED PRESS NIGHT REPORT.] LONDON, Nov. 9.—[By Atlantic Cable.] Claude Vautin, the metallurgist and inventor, known on the Pacific Coast, where he had lectured on mining subjects, and who was reported to have left London recently, after a financial coup, by which he secured £25,000 (\$100,000) in Bank of England notes and American railroad securities, was arrested in Florence, Italy, this afternoon.

TOMALES SCORCHED

ONE END OF THE SAME IS BURNED OFF.

Quay's Grocery and Two Livery Stables and a Barber Shop Are Destroyed.

FIRE PROBABLY INCENDIARY.

DAMAGE THIRTY THOUSAND DOLLARS, SMALL INSURANCE.

Two Men Swept Over the Falls of the Willamette—Terrible Fate of a Railroad Switchman at Oakdale.

[ASSOCIATED PRESS NIGHT REPORT.] SANTA ROSA, Nov. 9.—This morning a fire at Tomales, twenty miles from this place, destroyed the northern portion of the town, including Quay's grocery store and saloon, Fairbank's barber shop, Mulvaney's livery stable and Quay's livery stable. The damage amounted to \$30,000, with small insurance. The cause of the fire is unknown, but it is believed to have been incendiary.

SWITCHMAN'S TERRIBLE DEATH.

Foot Caught in a Frog and Train Ran Over Him.

[ASSOCIATED PRESS DAY REPORT.] STOCKTON, Nov. 9.—Albert C. Conrady, better known as "Doc" Conrady, met a terrible death this morning in Oakdale while switching in the railroad yards there. He was a brakeman on the Southern Pacific and was well known in this city, where he resided. He was a son of Dr. Conrady, who died a few years ago.

He started toward the train to meet it as it came toward him. In some manner, he stepped between the track and the iron frog, getting his foot caught and his efforts to free himself were unsuccessful. The train was bearing down on him so fast that it was too late to stop it, and the unfortunate man was knocked over by the pilot and mangled horribly. His arms and legs were broken and his hands and feet were cut off. His head was mashed and his trunk was also badly cut up. He was a wife in Stockton, and a mother and sister in Port Wayne.

OVER THE FALLS.

Edward Boyles Loses His Life in the Willamette.

[ASSOCIATED PRESS NIGHT REPORT.] OREGON CITY (Or.), Nov. 9.—This morning Edward Brown and Edward Boyles, were accidentally swept over the falls of the Willamette in a row-boat. Brown jumped out of the boat on the white bench of rock and saved himself from being drowned. Boyles went over the lower falls and was drowned.

Few Men That Had Courage to Help in Unloading the Strange Consignment—A Negro Badly Hurt in the Fall.

[BY DIRECT WIRE TO THE TIMES.] JACKSONVILLE (Fla.), Nov. 9.—[Exclusive Dispatch.] A carload of ostriches from the Southern California Ostrich Farm Company, which will have a branch in this city, arrived this morning via the Plant system railroad. The birds came direct from California, and were unloaded this afternoon, and taken to the farm in the eastern portion of the city, selected by A. N. Pearson several days ago. The car was loaded to its capacity, and the birds are worth \$500 per pair.

Mr. Pearson, representative of the farm, has selected a farm here on account of the favorable climate, and also its being in close touch with the eastern markets. The birds are in excellent condition at their long journey from California. They gave much trouble, however, to the inexperienced men who attempted to unload them. Negroes were afraid of them and few could be hired to help in the work. One inquisitive negro was badly injured in the fall.

UNEVELY SPAIN.

Was ever known such patience as our dear old Uncle Sam's "donkeys," when they need a battering-ram. Of Yankee ultimatum turned upon them "ere they'll know."

That our treaty is but courtesy that's shown a fallen foe?

On the other side the water—in the old historic place— They would dictate terms of treaty as it was not the case; The holding of the Philippines from us they would demand.

Forgetting that the victor claims, by right, the spoils of war.

What insolence unequalled and the nerve that it begets! As our portion they are willing to divide with us, and yet they demand that we should be a nation that can bring them naught but grief.

We are going to "hold dem Philippines," and "Cuba shall be free!" Never yet we've struck our colors when humanity made plea; Have we snatched her helpless victims from the cruel grasp of Spain, But to thrust them back, if haply, she demands them once again?

Shall the victories have been useless, that our sailors' fighters wrought, And the blood of noble heroes have been only shed for naught? It would seem "thou shalt" and "shalt not," should be plain, unvarnished facts; When dealing with a nation that can plead but "baby acts."

I fear me much the "foeman is not worthy of our steel," And the grip of "hand of iron 'neath the glove" Spain needs must feel, Yet once more before the lesson, that 'twould seem she's failed to learn, Shall be such that she will never feel the need of a return.

Kaiser to Arrive at Cadiz Late This Month.

[ASSOCIATED PRESS NIGHT REPORT.] MADRID, Nov. 9.—[By Atlantic Cable.] Inquiries made here concerning the proposed visit of the Emperor of Germany to Spain show that the Spanish government has been notified that two German warships, one of them having the Emperor and Empress of Germany on board, will arrive at Cadiz on November 20, but it is claimed that it is not known whether the visit of Their Majesty is of a private or of an official character.

It is asserted at the Foreign Office this evening that Emperor William and Empress Augusta Victoria, after visiting Cadiz, will visit Cartagena. The Queen Regent will invite them to visit Madrid.

ELECTION DAY TRAGEDY.

MASKED MEN HOLD UP A POLLING PLACE.

One of the Checkers is Shot and Killed, and Another is Perhaps Fatally Wounded—Bandits Escape—Men in the Polling Place Were Known to Have Money.

[ASSOCIATED PRESS NIGHT REPORT.] BUTTE (Mont.), Nov. 9.—Shortly before 5 o'clock this morning, while two judges were counting the votes in the Dublin Gulch Precinct of Butte, two men with handkerchiefs over their faces appeared at the door of the polling place. They had revolvers in their hands. The order to throw up hands was given. There were five judges, two clerks, two checkers, a deputy sheriff and several spectators present. Dennis O'Leary, the deputy sheriff, jumped at one of the men. Both men began firing.

John Daly, one of the checkers, was shot in the stomach, and O'Leary's shoulder was shattered. The masked men escaped at once, and all efforts to trace them have been unavailing. Both wounded men were taken to the hospital. Daly died on the way there. Some of the men in the polling place were known to have considerable money.

THE RACE CONFLICT.

FOUR NEGROES LYNCHED BY THEIR WHITE ASSAILANTS.

Positive Evidence Was Obtained of Their Having Been Concerned in the Shooting of Certain White Men.

[ASSOCIATED PRESS NIGHT REPORT.] AUGUSTA (Ga.), Nov. 9.—A special to the Chronicle from Greenwood, S. C., says a telephone message from Phoenix, the scene of the race riot in this county reports all quiet at 9 o'clock. About forty armed men are on duty there. Four negroes were lynched near the town of Phoenix about 2 o'clock this afternoon. Positive evidence was secured that they were implicated in the shooting of the white men yesterday. About one hundred white men participated in the lynching, and there was no attempt on their part to disguise or concealment. All is quiet here at this hour, though more trouble is expected in the Phoenix section. The efforts that have been made to prevent bloodshed so far have been of no avail. Public sentiment here unanimously indorses the lynching.

THE WEATHER YESTERDAY.

U. S. WEATHER BUREAU, Los Angeles, Nov. 9.—(Reported by George F. Pennington, Local Forecast Official.) At 5 o'clock a.m., the barometer registered 30.06; at 5 p.m., 30.06. Thermometer for the corresponding hours showed 50 deg. and 66 deg. Relative humidity, 5 a.m., 64 per cent.; 5 p.m., 50 per cent. Wind, 5 a.m., from west, velocity 1 m.p.h.; 5 p.m., southwest, velocity 5 m.p.h. Maximum temperature, 73 deg.; minimum temperature, 44 deg. Barometer reduced to sea level.

DRY DULS TEMPERATURE.

Los Angeles 50 San Francisco 49 San Diego 52 Portland 53

Weather Conditions.—The pressure has fallen on the Oregon and Washington coasts, though it continues high elsewhere there has been a marked and rapid rise in the barometer, accompanied by a cold wave. The temperature has fallen within the limits of this chart, except on the North Pacific Coast and at Fresno and Yuma, where it has risen slightly. Temperatures approximating zero are reported from Nevada, Eastern Oregon, Idaho and Northern Montana. Snow is falling at Denver. Clear weather prevails in California, and mild weather on the coasts of Oregon and Washington. Light frost occurred this morning at Roseburg.

Forecast.—Local forecast for Los Angeles and vicinity: Fair tonight and Thursday; cooler tonight, probably with frost in low portions.

SENDER PAYS THE WAR TAX.

Express Companies Not Required to Affix Revenue Stamps.

Judge Wellborn, in a decision rendered yesterday morning in the United States District Court, sustains the position of the express companies in refusing to pay for the revenue stamps required to be placed on packages for transmission. The question was raised in a suit brought by F. J. Zeehandelaar against Wells, Fargo & Co., to recover a judgment for being subject under law to a fine of \$50 for not having a revenue stamp properly attached to a package which he forwarded through the express company.

The defendant's attorney moved to the complaint on the ground that there was not sufficient cause of action stated. Yesterday morning Judge Wellborn sustained the defendant's motion. In his decision Judge Wellborn states that the question assumed by both parties is: Does the Revenue Law of June 13, 1898, where it requires a bill of lading to be stamped, impose the cost of the stamp upon the express company or upon the shipper?

He refers to the provision of the Revenue Law which reads in substance as follows: "It shall be the duty of every carrier to issue to shipper, or person from whom goods are received, a bill of lading, receipt for each shipment received for carriage and transportation; and there shall be duly attached to each bill of lading, or other memorandum, and to each duplicate thereof, a stamp of the value of 1 cent. Any failure to issue a bill of lading or other memorandum shall subject each carrier to a penalty of \$50 for each offense, and no such bill of lading or memorandum shall be used in evidence unless it shall be duly stamped as aforesaid."

The decision holds that the duty which this clause imposes upon the express company is to issue a bill of lading only where "goods are accepted for transportation" or "for each shipment received for carriage and transportation." Further, that the complaint not only fails to allege that the company accepted for shipment the packages in question, but the implication is to the contrary; and whatever may be the liability of an express company to a shipper on account of refusal to accept goods offered for transportation, the refusal is not a violation of the Revenue Law. The penalty of said law is incurred only when the company accepts goods and refuses to issue for them bill of lading.

Stinson Lafayette Fire.

At 8:30 o'clock last night an alarm was sent from box 65, at the corner of Vignes and Turner streets, for a small blaze in the kitchen of the Stinson Lafayette Industrial School. A few articles of wearing apparel had been washed out and hung in front of the stove to dry. In some way they caught fire. The blaze was extinguished before engine No. 3, which responded to the alarm, arrived. Shortly afterward the engine was again called to the same place, but as before its services were not required. This time the fire was in the girls' dormitory. It started in a closet full of clothes, and scorched the wall a trifle, but was quickly extinguished. There is a stove pipe within two feet of this closet, but it is said there was no fire in the stove connected with that particular pipe, and the cause of the fire is as yet unknown. About two weeks ago, a fire was discovered under the back stairway of the school, which was said to have been of incendiary origin. It was extinguished before any great damage was done.

VALERGA IS SORRY NOW.

MRS. FRUMENTO'S MURDERER IN SHADOW OF THE GALLOWS.

He Shrinks From the Awful Consequences of His Drunken Fury. Coroner's Jury Holds Him Responsible for His Bloody Act.

Sig. Franchi Valerga is a very unhappy man. The gallows tree which casts a shadow athwart his path makes him quake like the aspen leaf. He is sorry now that he shot Signora Benedetta Frumento without cause save that he suspected that she had stolen three of his shirts. The only excuse he has to offer in extenuation of his gruesome crime is that he was drunk and did not realize what he was doing. He now considers three shirts a sorry price for a human life.

Valerga was arraigned before Justice Owens yesterday on the charge of murder. He was not ready for his preliminary examination, and begged time to consult with one of his countrymen named Puma. His request was granted and the examination was set for Saturday morning at 9:30 o'clock. Bail was denied the prisoner, owing to the gravity of his crime.

The murderer was nervous when he faced the court, but his agitation then was nothing compared with his nervousness when he was confronted by the husband and son of his victim an hour later at the coroner's inquest. Valerga had such a bad attack of murderer's tremor when he was led into the presence of the mourning relatives that he almost shook the manacles off his wrists. His attitude was that of abject misery as he cowered in the corner of the inquest room and listened to the bereaved husband's recital of the bloody crime.

When Coroner Campbell asked the culprit whether he desired to make any statement to the jury, he replied through Interpreter C. Mugnani that he was drunk when he murdered the woman, and did not remember anything about it. After a little hesitation, however, he consented to be sworn, and gave a very circumstantial account of the quarrel and the shooting. His version of the affair did not differ materially from that of other witnesses. He still maintained that he was drunk when he took the woman's life, and not accountable for the act, but his ready answers to the coroner's questions proved that his memory was not much clouded, after all.

The testimony of Valerga and other witnesses showed that he was pretty well prepared for killing, as his arsenal consisted of a revolver in addition to the shotgun and two rifles, which the police found in the house after the tragedy. What his object was in maintaining such a formidable armament was not disclosed at the inquest. The fact that he had four firearms in his possession, all loaded and ready for action, will hardly help to establish his plea of innocence of murderous intent.

The inquest was held at Breeze Bros' morgue late yesterday afternoon. The first witness was Dr. Breeze, who testified as to the nature of the wound which caused the woman's death. Augustino Frumento, the deceased's husband, then related the story of the crime, substantially as heretofore published. He said his wife was born at Ancona, Italy, in 1848, and had lived in Los Angeles three or four years.

The ranch where the tragedy occurred belongs to a man named Pelanconi. Valerga had leased it, and Frumento was to take possession of it after his lease expired. Valerga's wife and son drove from their home at San Pedro and Jefferson streets to Valerga's place Tuesday, arriving there about noon. They were received in a friendly manner by Valerga. But while the husband and son were putting the horses away a quarrel arose between Valerga and Mrs. Frumento, the former having accused the latter, who was his landlady, of having stolen three of his shirts. Words led to a physical encounter, in which the woman was bearing her part quite valiantly, when Frumento rushed in and separated the combatants. Valerga made a motion as if to draw a revolver from his hip pocket. Frumento forestalled him and got possession of the gun, which he handed Deputy Sheriff Rubio later in the day. Valerga cooled down after he was disarmed and good humor was soon restored. All hands, including Giuseppe Duco, Valerga's ranch assistant, then sat down to luncheon, which was served under an arbor at the rear of the house. The five consumed between them about half a gallon of red wine. This seemed to fire Valerga's brain anew, and presently he renewed his quarrel with Mrs. Frumento about the shirts. The shooting details of which have heretofore been published, followed. Such in effect was Frumento's testimony.

Valerga then made his statement to the jury, in the main corroborating all that Frumento had said. His story differed in one particular only. That was in regard to the motion to draw his revolver during his first altercation with the woman. He said he was merely reaching for his handkerchief. When he drank wine he lost his brain, he said, and did things which he afterward could not remember. He did remember, however, that Mrs. Frumento hit him in the mouth with her fist; then he went into the house, grabbed his shotgun and sticking the muzzle out of the kitchen window shot the woman in the face. Under the stress of the excitement he would have shot anybody else who had failed to heed his warning to keep away from him. He was very angry.

Capt. Bradish and Officer Rico both gave testimony as to the arrest of Valerga and the investigation of the tragedy by the police.

The last witness was Frumento's son, who tearfully told how Valerga murdered his mother. Frumento simply corroborated that of the other witnesses.

The coroner's jury returned a verdict to the effect that Frumento was wilfully murdered by Fanchi Valerga. Valerga is 40 years old. He left his wife in Italy fourteen or fifteen years ago, when he came to this country. He wears a shaggy black beard, which is virgin to shears or razor, and gives him a brigandish appearance.

Railroad Briefs.
W. H. Snedekar, San Francisco, general agent of the Rio Grande Western, came in yesterday for a visit to Los Angeles.

T. C. Wells, formerly of the Chesapeake and Ohio, is a visitor to Southern California. His home is in Cincinnati.

Why don't you come here and buy that hat for your friend? We can save you \$2. There are no better hats made than our best ones, and its the easiest thing in the world for us to save you \$2 on a hat. Our finest hats are \$3. They are made for us by America's leading manufacturers. Silverwood prices don't hurt the wear, fit, or style of a hat or the way your pocket book fits your pocket after you pay for one. Things change and improve so rapidly late years that you need not be astonished at anything. Not many years ago Grandma used to "knit" socks for us. She does now "knit" hats for us. She goes out on her wheel, and we buy her own socks. A few years ago a man had to pay \$5 for a first class hat, a few stores still charge \$5 for them. We sell them for \$3 and make a profit at it.

MY EXPERIENCE.

A great many people, and a great many dentists too, ought to know a great deal about the methods of supplying artificial teeth without plates. Known as Crown and Bridge Work. The dentist who does not know a great deal about this work cannot tell you, enthusiastically, a great deal about its many advantages. Most that know has been taught me by experience—a great deal of experience. I'll be glad to tell you what you ought to know of the benefits.

BETTER FIRE SERVICE.

FIVE NEW STEAM FIRE ENGINES
SOON TO BE PURCHASED.

Important Notices Sent to Precinct
Committeemen—City Election
Ordinance to Be Passed.

DANIEL M'KAY IS ACQUITTED.

LEAVES A LARGE ESTATE.

Bar Association Passes Resolutions
of Respect Relating to the Late
E. St. Julian Cox—Flotsam
and Jetsam.

In order to properly equip the new engine-houses soon to be built, the Board of Fire Commissioners has requested the City Council to advertise for five new steam fire engines. They will be purchased out of the funds secured from the recent sale of bonds by the city.

Precinct committees throughout the city have been urged to immediately notify the secretaries of their respective central committees of the names of the persons who are to be appointed as election officers for the city election. It will be necessary to incorporate a list of these names in the election ordinance which must be passed by the City Council next Monday.

The hearing of the evidence in the waterworks controversy before the board of arbitrators will not begin today, as was originally intended, but has been postponed until November 21.

The Board of Public Works will this afternoon make a personal investigation into the much-disputed matter of the opening of Hoover street between Washington and Bush streets.

Daniel McKay, a victim of the police detectives' system of incommunicado arrests, was acquitted yesterday in Judge Smith's court of the charge of cruelty to animals. The charge was preferred against McKay by Detective Auble after he had been locked in the City Jail twenty-four hours without being allowed to communicate with any one outside. He was tried in the Police Court and convicted. An appeal to the Superior Court was taken with the result as stated.

The petition filed by the widow of the late Edward H. Hosmer of Pasadena, who died last week, shows that the estate left is valued at nearly a quarter of a million dollars.

FIVE NEW FIRE ENGINES

CITY COUNCIL ASKED TO ADVERTISE FOR THEIR PURCHASES.

Precinct Committees Urged to Name City Election Officers Promptly—Hearing of the Water Works Matter Before the Arbitrators Postponed.

The City Council is to be requested to advertise for five new steam fire engines, to be placed in the new engine-houses which will be erected as a result of the recent issue of bonds for the improvement of the fire department. At the regular meeting of the Board of Fire Commissioners yesterday morning, Chief Moore recommended that such a request be made of the Council by the board, and his recommendation was adopted. He suggested the purchase of two steamers of the first-class, two of the second-class and one of the third-class. The term "class" does not refer to the quality of the engines, but to their sizes and pumping capacity. The first-class engines will be erected as a result of the recent issue of bonds for the improvement of the fire department. At the regular meeting of the Board of Fire Commissioners yesterday morning, Chief Moore recommended that such a request be made of the Council by the board, and his recommendation was adopted. He suggested the purchase of two steamers of the first-class, two of the second-class and one of the third-class. The term "class" does not refer to the quality of the engines, but to their sizes and pumping capacity. The first-class engines will be erected as a result of the recent issue of bonds for the improvement of the fire department.

On recommendation of the Chief of Police, the City Council will be asked to permit to bore for oil on lots 2, 3, 4, 5, 6, 7 and 8, block J of the Knob Hill tract, was presented on condition that none of the wells included in the petition will be bored within the 1600-foot limit of any public park.

The Chief reported that since the last meeting of the commission there had been ten alarms of fire, the total loss being about \$4000.

The application of Andrew J. Sae for appointment as a regular fireman was received and ordered filed.

The resolution presented in the City Council last week by Councilman Ashman, providing for the establishment of a new engine company, the members of which shall be negroes, was sent to the commission by the City Clerk. It has been referred to that body. The resolution calls attention to the fact that more than a year ago a resolution was adopted by the Council providing for the establishment of such a company in the Seventh Ward, and calls upon the Board of Fire Commissioners to make provision for such a company. The board did not discuss the matter, but referred it to the committee of reorganization.

M. L. Hansen filed a claim for \$10 against Jack Springer, a member of the No. 3 engine company, alleging that the amount was due on account of rent of a house at No. 254 New High street. This matter had been presented by an attorney at a previous meeting of the board, but the commissioners then stated that they preferred to deal directly with the parties themselves and needed no arguments from an attorney. The bill was referred to the Chief for investigation.

WATER HEARING POSTPONED.
Arbitrators Are Not Yet Ready to Hear Evidence.

The hearing of the evidence in the controversy between the city and the Los Angeles City Water Company before the Board of Arbitrators was to begin today at the offices of the board in the Bulard Building. The members of the board have not completed their work of examining the condition of the plant of the company and familiarizing themselves with just what composes the plant. The hearing will therefore not begin today, but has been set for Nov. 21 at 10 a. m. At that time the attorneys for the city and for the water company will begin the presentation of evidence intended to show the members of the board the value of

Beauty and utility will be herein combined. The work will include much of the most useful information regarding the City's formation, means of transit, etc.

MUST REPORT PROMPTLY.

Election Officers to Be Named Next Monday.

Notices have been sent out by the secretaries of the various City Central Committees to the precinct committees calling their attention to the necessity of immediately furnishing to the central committees the names of the persons who are to serve as election officers at the coming city election. These names must be incorporated in the ordinance calling the election, and that ordinance will have to be adopted at the regular meeting of the City Council next Monday. It is therefore necessary that the precinct committees act promptly in the matter, and they are expected to furnish their respective lists of names by noon tomorrow. There are eighty-four precincts in the city, and it will be necessary to appoint eight election officers for each precinct.

The delay in counting the votes cast at the election Tuesday has taught the precinct committees of all the parties a lesson, and an effort is to be made to secure more rapid work in such places where the delay was caused by the inability of some of the election officers to properly do the work.

TO EXAMINE THE GROUND.

Board of Public Works Will Visit Hoover Street Today.

The Board of Public Works will make another effort today to settle the much-disputed matter of the opening of Hoover street between Washington and Bush streets. Accompanied by the commissioners who were appointed to determine the benefits and damages incident to the proposed opening, the board will visit the street and there give the property-owners who are protesting against the confirmation of the report of the commissioners an opportunity to point out the reasons for their objections. The matter of the opening of this street has been before the board many times and once the commissioners were directed to make certain changes in their allowances of damages and benefits. Their annual report was not satisfactory to the property-owners and another protest was filed. It is to dispose of this protest that the trip will be taken by the Board of Public Works this afternoon.

THEY CHARGED TOO MUCH.

Property-owners Objects to Paying Street Commissioner's Bills.

M. P. Filmore, who owns property which will be affected by the proposed widening of a portion of Fico street, has filed a communication to the City Council with the City Clerk, in which he states that, while he does not object to the improvement of the street, he does object to the present form of the report of the commissioners appointed to assess the damages and benefits. He asserts that the charges made by the commissioners for their services were unreasonably high and he therefore asks that an investigation of the matter be ordered by the City Council and a reduction ordered in the amount.

In another communication Mr. Filmore requests that the work of opening the street referred to be postponed for six months in order to give the property-owners a chance to pay for the work without inconveniencing them.

Protest Against a Sidewalk.

Owners of property on Baily street between First and State have filed a protest in the City Clerk's office against the construction of a sidewalk on that street, alleging that the cost would be too great and that the improvement is not necessary.

Want a Better Sidewalk.

The attention of the City Council has been called to the condition of the sidewalks on South Broadway between the Sixth and Seventh streets, and a request has been made that proceedings be instituted to secure their improvement.

Restored in a Hay Barn.

A well-dressed young man who gave the name of Charles Burns was tried for vagrancy yesterday because he rested on a pile of hay at the Plaza Haymarket for twenty minutes, Tuesday afternoon. Burns is a waiter by occupation, and has been working as an extra man at the Saddle Creek Hotel, Ebinger's and other restaurants. He says he was waiting at Ebinger's for vagrancy yesterday because he became suddenly ill and started out to take a walk. As he was passing the haymarket he felt so ill that he lay down on the pile of hay and fell asleep. He had been there but a short time before the proprietor of the place discovered him and telephoned for a policeman to take him away. Officer Rico took him to the City Jail and booked him as a vagrant. After hearing the evidence, Justice Owens dismissed the case, as he did not believe that the prisoner was a vagrant in any sense of the word.

AT THE COURT HOUSE.

M'KAY ACQUITTED.

JURY DECIDES HE WAS NOT CRUEL TO HIS HORSE.

A Verdict of the Police Court Returned on Appeal—A Victim of the Police Detectives' Incommunicado System.

Daniel McKay was tried yesterday before a jury in Department One of the Superior Court on a charge of cruelty to animals, and was speedily acquitted. The case was tried on appeal from a decision of the Police Court, where the defendant was convicted a short time ago. It took the jury in Judge Smith's court just five minutes to reverse this decision.

The case is one which has excited considerable interest and called attention to the method of the police detectives in locking up prisoners without recording the arrest or giving them a chance to communicate with their friends. McKay was arrested by Detective Auble and Policeman Phillips and locked up twenty-four hours without being allowed to make arrangements to give bail. He was not informed what crime he was supposed to have committed nor permitted to communicate with his relatives.

When he was arrested McKay was carrying a bundle of shingles under his arm, and there is no doubt that the officers believed he had stolen them from a house which was being built near where they met him. McKay denied that he had come by the shingles dishonestly and said that he was carrying them from his shop to his house. The officers evidently felt weak about making a petty larceny case stick, and looked about for some excuse for making the arrest and detaining McKay as a prisoner.

They found that he had been driving a horse with a sore back, and the happy thought occurred to prefer a charge of cruelty to animals. This was done, and McKay was brought to trial in the Police Court before a jury summoned by police officers. The trial resulted in his conviction. He appealed the case to the Superior Court with the result that he was speedily acquitted when the case came to trial yesterday. A petty larceny charge has since been preferred against McKay by Detective Auble, but this case has not yet come to trial.

NEW INFORMATIONS.

District Attorney Files Charges Against Several Alleged Offenders.

The District Attorney filed yesterday three informations for felony in Department One of the Superior Court. William Boughton and John Grady are charged with burglary. They are alleged to have burglariously entered the house of W. A. Meyers, September 26. Charles Carson is accused of grand larceny. He is charged with having stolen a \$5 gold piece from the person of Charles J. Smith on October 14. Dan McCarthy and Herbert Wright are charged with assaulting Rachel J. Crank, October 1, with intent to commit robbery.

INJURED IN A COLLISION.

James Burritt Sues the Los Angeles Railway Company for Damages.

James Burritt commenced a suit yesterday against the Los Angeles Railway Company to recover \$5000 damages for injuries alleged to have been sustained in a collision with an electric car. The complaint was filed by Kendrick & Knott.

The plaintiff alleges that he was driving along Second street in a spring wagon on August 27, when one of the electric cars operated on that street ran into him with great violence. He was thrown out and seriously bruised. His head was cut to the skull, and his limbs and body were lacerated. The plaintiff avers that the car was running at a high rate of speed when the collision took place, and that the accident was the result of the carelessness of the motorman and conductor.

RESOLUTIONS OF RESPECT.

Bar Association Takes Action Regarding the Death of E. St. J. Cox.

A committee of the Bar Association in this city, appointed at a recent meeting to draft resolutions of respect regarding the death of E. St. Julian Cox, yesterday submitted the following:

"We, the undersigned committee of the Los Angeles Bar, respectfully submit the following resolutions of respect in relation to the death of the late E. St. Julian Cox, formerly of the bar of St. Paul and St. Peter, Minn., where for many years his personality was strongly impressed upon the legislative and judicial departments of his adopted State. Falling health induced him a few years ago to settle in Los Angeles in the hope that the climate of this section would give rest and peace, if not restoration of health. The hope, while at first encouraging, did not justify his anticipation. A shattered constitution could not be restored by climate, and death ensued on the 3d inst., by which the State of Minnesota has lost a distinguished citizen, jurist and legislator, and California has lost an adopted citizen who, had he been blessed with health and strength, would have been an honor to the State and an example to the young members of his profession.

"Resolved, that we hereby tender to the State of Minnesota and the family and friends of our deceased brother in the two States the sympathy and condolence of our professional brotherhood, and request that these resolutions be spread upon the minutes of the court, and that a copy thereof be forwarded to the family of our deceased brother."

Miscellaneous Driftwood Thrown Into the Courts.

A HOTEL COMPANY. M. M. Potter and others filed articles of incorporation yesterday with the County Clerk of the M. M. Potter Company. The company is organized to conduct and carry on the business of keeping, maintaining and operating hotels, restaurants and eating houses. The capital stock is placed at \$100,000, all subscribed. Most of the stock is held by M. M. Potter. The directors are M. M. Potter, L. N. Van Nuys, Frank P. Loomis, Gilbert T. Gay and Harry Loomis.

SUIT ON A NOTE. The Pacific Improvement Company filed a suit yesterday against C. E. Crowley to recover \$472.48 on a promissory note.

SCHOOL BONDS APPROVED. The Board of Supervisors yesterday ordered the bond of the Los Feliz school district for \$800, and of the Barrett school district for \$1500, approved and signed.

JUDGE VAN DYKE IS CONGRATULATED. Judge Walter Van Dyke received several telegrams yesterday congratulating him on his victory in the race for election to a seat in the Superior Court. Among others, Judge Van Dyke received a telegram of congratulation from F. B. Deering, the well-known Republican leader in San Francisco.

SUIT TO QUIET TITLE. R. H. F. Villar filed a suit yesterday against the City of Los Angeles to quiet title to lots 48 and 49 of the Mills & Wicks extension of Second street.

CATTLE-STEALING CASE CONTINUED. The examination of Harry L. Flournoy, one of the alleged cattle thieves recently arrested, was to have taken place yesterday morning in Justice Young's court, but was continued until today on account of the absence of an important witness for the prosecution.

SUIT AGAINST LUTGE'S BONDSMEN. Another suit, brought by the Long Beach school district against the bondsmen of Theodore Lutge, was tried yesterday before Judge York, and submitted on briefs. The suit was to recover \$2734.43, which the plaintiffs allege was lost on account of Lutge failing to carry out his contract. The bondsmen and defendants in the case are S. C. Dodge, Simon Maier, James W. Hellman and W. C. Furry.

SOLDIERS EXHIBITION DRILL.

Chamber of Commerce Asked to Arrange for the Event.

The directors of the Chamber of Commerce held a regular weekly meeting yesterday afternoon. Several communications were received from the Good Roads and Public Improvement Association of Missouri, requesting the chamber to appoint twenty delegates to represent Los Angeles at a convention of the Missouri association, to be held November 31, at St. Louis.

A letter was read stating that the Seventh Regiment will be in Los Angeles November 14, and will remain in camp two or three weeks. It is desired to give an exhibition drill, the proceeds to go toward the erection of a monument to the memory of the members of the regiment who died in camp at San Francisco, the same to be placed in one of the public parks and not to cost less than \$3000. The Chamber of Commerce was requested to take charge of all the arrangements in connection with the drill. The letter mentions that it has been suggested to distribute the money raised by the drill among the families of the dead soldiers, but says that the boys think it more appropriate to erect a monument. The letter was referred to a special committee.

Secretary Wiggins, who has just returned from the Omaha exhibition, described the work he has been doing there and pronounced the Southern California display a magnificent success.

ORANGE COUNTY.

SANTA ANA, Nov. 9.—[Regular Correspondence.] Constante Steve Dende of Los Alamitos arrested two Whittier escapes at that place yesterday and returned them to the institution.

An old lady was found dead in bed in a cheap lodging-house on Syracuse street this morning. She went to bed apparently in good health, but expired during the night. An inquest was held by Coroner Clark this afternoon.

NEW LOCATION.

The book and stationery store of Ball & Thayer Co. has been moved to more commodious quarters, located in the city, Nos. 323 and 324 South Spring street, between Main and Second.

DYSPEPSIA.

HUDYAN CURES.

DYSPEPSIA OR INDIGESTION is a functional derangement of the stomach characterized by disorders of the function of digestion, and in most cases, the presence of nervous symptoms.

There are two forms—nervous and acid; the former is usually seen in active business or busy professional men of a nervous temperament, who eat meals rapidly and hurry off to business. Acid dyspepsia is met with among the poorer class of people whose diet is usually a coarse one.

SYMPTOMS.—Perverted appetite; entirely lost or ravenous; a feeling of weight or fullness in the stomach, heartburn, return of food from the stomach to the mouth (regurgitation). Pain or soreness at the pit of the stomach during digestion. Drowsiness after meals with wakefulness at night, defective memory, headache, constipation and flashes of heat. Breath is offensive and there is a peculiar taste in the mouth. The tongue is usually coated and shows marks of the teeth, though in some cases the tongue appears clear.

TREATMENT.—At the first appearance of any symptoms of dyspepsia, commence the use of "HUDYAN." Take one "HUDYAN" tablet three times a day, before meals, for the first few days, and then increase to two, three times a day, before meals. Special attention must be paid to the diet. Eat plain and simple food, consisting chiefly of fruits and well-cooked vegetables. Eat slowly and chew the food so well that it becomes thoroughly mixed with saliva. Eat at regular intervals, the last meal of the day being a light one. Very hot food and iced drinks should be avoided, as also should pork, fat meats, grease, pastries and confections, beer and alcohol. Tea and coffee should be moderately used, and they should be rather weak. Take some regular, light exercise and keep the mind free from thought of ailment. Persist in your efforts and take "HUDYAN" regularly. Remember that some cases are more stubborn than others, but if the above directions are carefully followed a cure will be effected in every case.

In nearly every city, town and hamlet men and women have used "HUDYAN" for dyspepsia, and these men and women report a wonderful result. There is something peculiar about "HUDYAN" that is unexplainable. "HUDYAN" acts like magic.

Here is a letter from Mr. Carl R. Tufts:

September 12, 1898.
Dear Doctors—I am feeling much better after using your "HUDYAN." "HUDYAN" does not seem to disagree with me in any way. I notice that since using "HUDYAN" I am not able to eat some things which I craved at one time. I have not had a headache since beginning your treatment. I sleep fine, and seem to be restored when I wake up. I am fully satisfied with "HUDYAN." There is an agreeable feeling coming over me.

Yours truly, CARL R. TUFTS,
8208 S. Grand Ave., Los Angeles, Cal.

H. F. Spurrell, Seabrook, Wash.
Dear Doctors—I am more ambitious and am better generally, and have gained in weight, since using "HUDYAN." "HUDYAN" acts peculiarly

with me. Sometimes I feel a tower of strength. I want to sing, and I am as happy as I can be. Yours truly, H. F. SPURRELL.

John Woehroe, Hauser Junction, Idaho, says:
Physicians of the Hudyman Remedy Co.: Dear Doctors—I feel that I am restored to full vigor and health. I am now able to eat three square meals a day. For this restoration I am indebted to "HUDYAN." I feel very thankful to you and will surely do all I can to spread the fame of "HUDYAN." It is a very peculiar remedy. I am not going to give it up all of a sudden. I feel like taking lots of exercise now, and I never lay down as I did before I began taking "HUDYAN." Yours truly, JOHN WOEHROE.

Mrs. H. Johnson says:
Dear Doctors—I am getting along fine, and am improving all the time. My hands are getting better, and I am feeling better than I have for a long time. Yours truly, MRS. H. JOHNSON, Hoquiam, Washington.

I should not have done this had I not regained my health. I have no cough, I have gained 30 lbs., and feel stronger and better than I have felt for many years. Can you tell me what is in that "HUDYAN"? It is a great medicine. I have recommended it to about 25 people here. Still I believe I am in your debt. Yours truly, L. BALL.

August 30, 1898.
Dear Doctors—It is with the greatest of pleasure that I pen you these few lines to let you know how I am getting along. I am feeling a good bit better than I was when I first wrote you, and I thank you very much for your "HUDYAN." I don't seem to "fall off the handle" as I used to. "HUDYAN" acts like magic on me. I feel better every time I take it. Yours truly, THADDEUS BISHOP.

W. H. Mittel, Chico, Cal., says:
Hadyan Doctors:
Dear Sirs—I will write you to tell you I am well and feeling fine. I have gained three pounds of flesh since I last wrote you. My legs are getting large and strong. The people in town make remarks every day about how well and large I am looking. I have a good appetite and my bowels are regular. I have never had any burning any more. Yours truly, W. H. MITTEL.

Robert Jackson, Baltimore, Maryland, says:
Dear Doctors—I feel like a different man since taking your medicine. You surely have done a good part by me, and I will assure you that you are not losing anything on my account, as I will tell all my friends what "HUDYAN" has done for me. Anyone who will write to 801 N. Front St., Baltimore, Maryland, will receive a prompt reply, and I will tell them just what "HUDYAN" has done for me.

BUSINESS.

FINANCIAL AND COMMERCIAL.

OFFICE OF THE TIMES.

Los Angeles, Nov. 9, 1893.

BANK EXAMINATIONS.

Charles G. Davies, Comptroller of the Currency,

has ordered that the system of semi-

annual examinations of national banks

in effect in the country shall extend

over all cities without any exceptions

as heretofore. In the cities of New

York, Boston, Philadelphia and Balti-

more but the examination by national

bank examiners has been yearly,

and the custom has grown up of special

examinations by the bank examiners

made for the benefit of the bank and

not for the government, for which the

examiners were compensated by the

banks. This is clearly in the right di-

rection. It is treating great and small

alike. At the best it is difficult to keep

perfect watch over employees as well as

officers. Clerks and accountants may

be changed frequently and yet pecu-

niations may escape detection. If the

officials and employees are in collusion

it is impossible to detect "crooked" ac-

counts until the robbery becomes

wholesale.

EUROPEAN BALANCES.

For the

eight months ended August 31, exports

of merchandise from this country were

valued at \$77,645,726; while merchan-

dise imported in the same period had a

value of \$171,232,230. Showing a credit

balance on merchandise account of

\$93,586,504. So far this year gold im-

ports have aggregated \$38,000,000, com-

paring with \$17,000,000 for the same

period of last year. Gold exports for

the period were less than \$10,000,000

compared with \$20,000,000 last year.

When the gold balance is taken into

merchants will come back in gold de-

pends on the relative demand and the

rates of interest in America and

Europe. Whenever the balance is wanted

on this side it must come.

COMMERCIAL.

THE WALNUT MARKET.

The

movement of walnuts out of the section

has been decidedly lively for the

past month. One of the big associations

has sent forward over 150 cars, and

from all Southern California, perhaps

255 cars have gone this far, estimated

to be considerably more than half the

crop. There may not be to exceed 175

cars left. There are few nuts out-

scattering in the hands of independent

growers, nearly if not quite all stocks

being in the hands of the combina-

tions, which all hold together with

more than usual tenacity. Prices are

very firm for all varieties and grades.

No soft shells are obtainable at less

than 8 cents in carload lots, and hard

shells are 7 cents. Second and 5

cents. There are good many seconds

in the crop, and standard nuts of both

varieties are becoming rather scarce.

The demand is most active just now

as retail merchants are stocking up

for the holiday trade, and when that

is done, the market will become very

quiet. The holiday trade is almost

tireless in the nuts, the records go-

ing to confectioners and boxers. Early

in the season there was a very active

demand for second and 5 cents, and it

was thought the market would be firmer

on this grade than on the best. The large

portion of the crop turning out below

standard grade has somewhat changed

this condition.

CANNED BEEF EXPORTS.

The

September exports were 3,518,000 pounds,

against 3,881,796 pounds for the same

month last year. For the nine months

ending September 30, they were 22,242,

444 pounds, against 29,854,000 for the

corresponding time in 1892, a decrease

of 7,612,646 pounds.

GENERAL BUSINESS TOPICS.

ARTIFICIAL FERTILIZERS.

In

America farming is getting to be a

business. Extensive cultivation of

small acres pays much better than

careless handling of large ones. One

of the great industries of the age is

the preparation of artificial fertilizers.

The value of the product is \$100,000,000

a year.

MACHINE LABOR.

Since the

days when English factory operatives

were in angry mobs and broke Ark-

wright spinning machines in their wild

dread that there would be no employ-

ment for labor, such a thing as a

mechanical kind has been met with

more or less of the same blind hos-

tility.

Congress appointed a commission to

study the subject and from the report

the statistics presented make it evi-

dent that there has been a large in-

crease in the number of persons re-

quired for the production of the ar-

ticles considered in order to meet pres-

ent demands, over what was necessary

to meet the demands of the present

labor system. One interesting result is

to show how extensive is the hand-

method of production even now. Hand-

methods are still used in the manu-

facture of 1000 one-pound loaves

of bread, is reduced in cost from \$5.50

to \$1.50, and in time from twenty-eight

to eight hours; axle clips, 1000 in quan-

tity, from \$23.33 to \$4.27, and from 666

to twenty-three hours. In making 500

pounds of dairy tub butter, the machinery

cut the cost down from \$10.65 to \$1.75,

and from 125 to twelve hours. In dia-

mond cuttings, machinery has reduced

the time for each hundred from 132

to thirty-nine hours, but increased the

cost from \$14.84 to \$26.25. In litho-

graphing, the cost is cut from \$2.87

per 1000 copies to \$1.50, and in printing

and publishing magazines, 10,000 copies

reduced by hand in 1880 and by machinery

in 1890, cost relatively \$97.44 and \$11.48;

time 900 and 148 hours, the number of

workmen employed is reduced from

twenty-seven to eighteen. In mining

100 tons of bituminous coal, the hand

cost in 1891 was \$77.60, and time con-

sumed 342 hours; machinery reduced

this in 1891 to \$43.40, and the time to

388 hours, while the number of work-

men also is reduced from forty-two to

thirty-two.

But wherever there has been such

reduction in cost there has been an

increase in consumption, and thus the

number of men employed is rather in-

creased than diminished. Again labor

gains in that it is less laborious to at-

tend a machine than to do the work

by hand, and lastly, the cost of nearly

all the necessities of life has been

greatly lessened, while the quality of

nearly everything used, is greatly im-

proved.

LOCAL PRODUCE MARKETS.

The

local markets develop no change in

values in any of the produce lists. Con-

ditions are the same as at the opening of

the week.

The general tone of the markets is one of

great steadiness to firmness. Hardly a weak

spot is discoverable. Hay is merely steady,

as farmers continue to sell freely enough to

prevent any lack of supplies. The weather

will bear an important part in this market

from this on. A big rain would take all the

steadiness out of it, while each week of dry

weather adds strength.

Potatoes are very firm under moderate sup-

plies and good steady demand. Sweet pota-

toes are easy.

Fruits are the strongest points in all the

list. In all shapes supplies are very light.

Meats are steady in all forms.

Supplies of vegetables are light and prices

firm.

The auction sale of Mirhan's collection of fine Persian rugs commences today at 10:30 a.m. and 2 p.m. at No. 420 S. Broadway. The rugs are, indeed, very choice and rare specimens, the like of which will never be seen again; attendance to the sale will be well rewarded.

Rand, McNally's standard wall atlas, size 14x22 inches, sixteen full-page maps, with index, given with a prepaid three month subscription to The Times. For sale at 40 cents each. Annual meeting of Pine Tree State Association at No. 330 S. Broadway, way Friday evening. All Maine people invited.

Special—Finest cabinet photos reduced to \$1 and \$1.75 per dozen. Sunbeam, No. 234 South Main Street. Dr. Wernich has removed his office to Stimson Block, rooms 209, 210.

Brosie Bros., undertakers, Broadway and Sixth st., Tel. M. 243.

M. W. Carlisle was run in by Officer Johnson last night for carrying concealed weapons.

There are undelivered telegrams at the Western Union telegraph office for John M. Sullivan, J. F. McCrosson, Thomas C. Watrous, Mrs. Cora Cotton, Ames F. Hoffer, James H. Wadsworth.

A small fire caused by a defective fuse in the residence at No. 1578 West Pico street, at 8:20 o'clock yesterday morning, caused a still alarm to be sent to the No. 4 chemical engine company. The fire was easily extinguished, with but small loss.

James Askins and E. O. Sullivan got into an altercation last night near the junction of Temple and Spring streets, and Sullivan struck Askins over the head with a cane. Officer A. W. Murray took them to the City Jail, where Sullivan was booked for some time and Askins for medical treatment.

Edward Watkins was treated at the Receiving Hospital last night for a bruised head. Watkins was driving a delivery wagon in the rear of Fred Hinman's market at No. 332 South Spring street. The horse started up suddenly, and Watkins fell from the wagon, striking on the back of his head. Dr. Hagan dressed the bruise.

Andrew J. Springer, a houseman on chemical engine No. 4, was treated at the Receiving Hospital yesterday afternoon for a wound on the skull, behind the left ear. Springer and Thomas J. J. McDonald, captain of the company, have been on duty for some time and yesterday, according to Springer, McDonald struck him on the head with a hammer.

MUSIC AND MUSICIANS.

Preeminent above all other ballad-singers in the United States stand Mr. and Mrs. Max Heinrich and Maria Julia Heinrich, who will appear at Simpson Auditorium this evening, tomorrow evening and Saturday-afternoon. Their programmes embrace solos by each, duets by Mr. and Mrs. Heinrich, and by Mrs. Heinrich and her daughter, the latter being very much more than singers, and their work is equally enjoyable to musician and musical layman. Mr. Heinrich is a consummate artist, and as an interpreter of Schubert and Schumann's songs, is said to have no equal in the world. Mr. Fitzgerald, under whose management these delightful artists appear here, has made a concession in prices to the students of the Normal School for this evening, that they may take advantage of the educational opportunity of hearing the Heinrichs sing. The programme for tonight will be:

"Die Post" (The Post), (Franz Schubert)—Max Heinrich.
Three duets, (a) "Herbstlied" (Autumn Song); (b) "Ländliches Lied" (Peasant Song); (c) "Schoen Blumlein" (Beautiful Flower). (R. Schumann)—Mrs. Heinrich and Miss Julia Heinrich.
Songs, "On the Way to Kew" (Arthur Poole); "Irish Folk Song" (Arthur Poole); "Lullaby" (Frances Campbell)—Miss Julia Heinrich.
Two songs from the "Spanish Song Book": (a) "Vencido Muro" (Murmuring Zephyrus); (b) "Riberias del Rio" (On the River Manzanera). (Ad. Jensen)—Max Heinrich.
Canzonette, "My Mother Bids Me Bind My Hair" (J. H. Harlan); songs, "Polly Willis" (Dr. Arne); "Chinese Love Song" (Ed. S. Kelley)—Mrs. Heinrich.

Songs, "Where'er You Walk" (Fr. Haendel); "Spring Song" (A. C. Mackenzie); "It is Not Always May" (Gounod); "Snow Flakes" (F. Cowen); "Gypsy John" (Fr. Clay)—Max Heinrich.

WANTED HIS NICKEL.
A colored Shylock battles a De-faulting Woman Debtor.

H. K. Williams, alias Henry King, a husky young negro of pure African descent, is a veritable Shylock in the matter of demanding his pound of flesh or making his debtors pay the utmost farthing. Williams recently accommodated a colored girl named Josie Settles, with a loan of 50 cents. Josie paid back 45 cents on account, but, despite persistent dunning by Williams, remained shy for the other nickel.

Williams met Josie at a colored political club on Los Angeles street on the night of the election, and again demanded his money. Josie declared she hadn't a single penny, and paying back such a stupendous amount as a whole nickel on such short notice was simply out of the question. As Josie was leaving the club, Williams followed her to the street and threatened her with dire punishment if she would not square up with him before the end of the week. Josie resented his insolent language, and he promptly knocked her down. As she staggered to her feet he squared off at her again, but just then Patrolman Ford arrived on the scene and sent the Ethiopian Shylock to the City Jail.

Williams pleaded not guilty to the charge of battery, in the Police Court yesterday, but was convicted in short order. He will be sentenced today.

Catarrh is Not Incurable

But it can not be cured by sprays, washes and inhaling mixtures which reach only the surface. The disease is in the blood, and can only be reached through the blood. S. S. S. is the only remedy which can have any effect upon Catarrh; it cures the disease permanently and forever rids the system of every trace of the vile complaint.

Miss Josie Owen, of Montpelier, Ohio, writes: "I was afflicted from infancy with Catarrh, and no one could know the suffering it produces better than I. The sprays and washes prescribed by the doctors relieved me only temporarily, and though I used them constantly for ten years, the disease had a stronger hold than ever. I tried a number of blood remedies, but their mineral ingredients settled in my bones and gave me rheumatism. I was in a lamentable condition, and after exhausting all treatment, was declared incurable. Seeing S. S. S. advertised as a cure for blood diseases, I decided to try it. As soon as my system was under the effect of the medicine I began to improve, and after taking it for two months I was cured completely, the dreadful disease was eradicated from my system, and I have had no return of it."

Many have been taking local treatment for years, and find themselves worse now than ever. A trial of

S.S.S. For the Blood will prove it to be the right remedy for Catarrh. It will cure the most obstinate case.
